## **DIABLO ANALYTICAL, INC. AND JOPASANA SOFTWARE & SYSTEMS PVT. LTD. ANNOUNCE AGREEMENT TO SELL AND SUPPORT HIGH TECHNOLOGY SOFTWARE SOLUTIONS BASED ON JOPASANA'S OUTPERFORM AUTOMATION FRAMEWORK IN NORTH AMERICA**

Concord, California – October 1, 2005 – Diablo Analytical, Inc. announced today that they have signed an exclusive agreement with Jopasana Software & Systems Pvt. Ltd. of Pune, India to sell and support high technology software solutions based on Jopasana's OutPerform Automation Framework in North America.

"We are excited to add Jopasana's software solutions and capabilities to our suite of support products", commented Scott Hein, President of Diablo Analytical. "The Jopasana LS InstruCare product will greatly enhance our ability to support high-technology analytical instrumentation platforms". Diablo will initially integrate the LS InstruCare software with its support products for the Agilent Technologies and Joint Analytical Systems Atomic Emission Detector for Gas Chromatography (GC-AED).

"Jopasana is excited to be partnering with Diablo to unveil integrated analytical instrument support solutions based on the OutPerform platform in the form of LS InstruCare." commented Ajay Phatak, CEO of Jopasana. "We expect to grow significantly in the North American market through this solution". "We are happy to see that our dreams of addressing the real needs of the end customers are being accomplished through this association" said Abhay Barhanpurkar – General Manager - Software Solutions (Life Sciences & Chemical Analysis) of Jopasana.

Diablo Analytical, Inc. specializes in the development and support of high-technology analytical instrumentation systems for chemical measurement. Diablo integrates application know-how, software automation, and hardware customization to deliver instruments meeting each customer's unique needs. Their North American client base includes major industries, key regulatory agencies, and the service laboratory sector, with applications ranging from petrochemical, electronics, health and safety, and environmental to materials testing and on-line product quality control. Diablo is also an Agilent Technologies Channel Partner and Authorized Support Provider. Additional information is available at [www.diabloanalytical.com](http://www.diabloanalytical.com).

Jopasana Software and Systems Pvt. Ltd. is a software services and solutions company specializing in real time systems in the industrial automation domain, successfully serving the world market for last 15 years. Their commitment to customers and expertise in product design & development has helped them to become an engineering R&D arm for leading companies in Life-Sciences, Process Industries, Semiconductor, and Telecommunication.

LS InstruCare is designed to address the management needs of analytical instruments. Built on their real-time reliability and performance management platform, it provides early detection of potential problems through intelligent monitoring. Through this product, they ensure substantial user benefit by improving overall equipment effectiveness and a commitment to support the instrument life cycle. For more information about Jopasana and LS InstruCare please contact Abhay Barhanpurkar at [lsic@jopasana.com](mailto:lsic@jopasana.com).
